

2023 Idaho WWAMI
Excellence in Teaching

Award Recipient
Matthew Renner, MD

I would like to nominate Dr. Matthew Renner for recognition. He precepted my OB/GYN rotation in Boise. He went above and beyond to make me feel welcome and ensure I was having a positive experience. He continuously checked in with me to see how the rotation was going and went out of his way to arrange special experiences for me that were in line with my particular interests. He is clearly invested in medical student education and genuinely wants us to have the best experience we can on his rotation.
